MONIQUE FRIZE

Leading the Way

University of Ottawa Library Archives and
Special Collections, 10-123-S10-SS6_F1

Frize, a trailblazing biomedical engineer and professor, has broken barriers and advanced equality her entire career. Her work in medical technology improved health care in Canada and around the world.

Ingenium and NSERC are committed to encouraging and empowering women and girls in science, technology, engineering, and math. Learn more at: ingeniumcanada.org/womeninstem
