KAREN HEYWOOD

Understanding Antarctic Ice

© Will Homoky

Heywood is a British oceanographer studying the ocean's physics, chemistry and biology associated with Antarctica's melting ice shelves. Using marine robots, she hopes to better understand the ocean's role in climate.

This poster was developed as a part of a subseries in the context of the All-Atlantic Ocean Research and Innovation Alliance (AAORIA). Ingenium, Fisheries and Oceans Canada and Canadian Commission for UNESCO are committed to encouraging and empowering women and girls in science, technology, engineering, and math.
