MARIT REIGSTAD

Connecting Ocean Disciplines and People

© Mattias Cape,
Scripps Institution of Oceanography

Reigstad is a Norwegian marine ecologist studying different aspects of Arctic marine ecosystems, from the surface to deep waters. Through her leadership of interdisciplinary projects and expeditions, she connects scientists across disciplines and geographies.

This poster was developed as a part of a subseries in the context of the All-Atlantic Ocean Research and Innovation Alliance (AAORIA). Ingenium, Fisheries and Oceans Canada and Canadian Commission for UNESCO are committed to encouraging and empowering women and girls in science, technology, engineering, and math.
